WASATCH COUNTY

2016 CONSTRUCTION INFORMATION

1. 600 South; Main Street to 500 East Reconstruction in Heber (MP 1-2)

Overview: Crews are widening and reconstructing 600 South to add a center turn lane and widen shoulders. This project adds new sidewalk, pedestrian ramps, curb and gutter, and a bike path along the south side of the street, as well as replacing flood irrigation with pressurized irrigation. Crews are working during daytime hours and one lane remains open in each direction. (Local government project)

Timeline: March through June 2016

2. U.S. 189 Deer Creek Widening; State Park to Rock Cut (MP 19-25)

Overview: UDOT is widening U.S. 189 along Deer Creek Reservoir to include two lanes in each direction, plus a center turn lane and 8-foot shoulders. This project will also install new wildlife fencing and a wildlife undercrossing. During construction, one lane will remain open in each direction, and the shoulders will be closed. The work will take place during daytime hours.

Timeline: April through August 2016

3. U.S. 40; Heber 400 North to Jordanelle (MP 12-17)

Overview: This project will remove and replace asphalt along U.S. 40 from downtown Heber north to the start of concrete pavement, just beyond the S.R. 32 junction. Crews will work primarily during daytime hours Sunday through Thursday. Drivers can expect lane reductions and delays as construction is completed.

Timeline: May through June 2016

4. 1200 East; Road Widening in Heber (MP 3.5-5)

Overview: Crews will widen 1200 East to add a center turn lane and bike lanes. This project will also add sidewalk, pedestrian ramps, and curb and gutter in various locations. During construction, one lane will remain open in each direction, and the work will take place during daytime hours.

Timeline: May through August 2016

5. S.R. 113; Bike Improvements (MP 5-7)

Overview: UDOT will upgrade the bike trail along S.R. 113 from 600 West to Southfield Park.

Timeline: fall 2016

6. U.S. 40; Culvert Replacements on Heber Main Street (MP 16-18)

Overview: Crews will repair or replace 43 culverts along Main Street in Heber to improve drainage and enhance safety for drivers. The work will take place during nighttime hours, and the road will be reduced to one lane in each direction.

Timeline: fall 2016

NEARBY REGION TWO PROJECTS:

7. U.S. 40; Bridge Preservation from S.R. 248 to Jordanelle Reservoir (MP 3-9)

Overview: UDOT is performing maintenance work on seven bridges along U.S. 40 near the Jordanelle Reservoir to extend the useful life of the structures. Drivers should expect moderate delays due to lane restrictions and a two mile traffic shift 24 hours per day throughout the project.

Timeline: May through August 2016

8. S.R. 35; Francis to Diamond Bar Ranch (MP 0-9)

Overview: Crews will resurface the roadway and perform shoulder, median and culvert upgrades on S.R. 35 near Francis. Work will occur Monday through Thursday between 7 a.m and 7 p.m., and all lanes will be open on weekends (Friday through Sunday) and holidays. Drivers should expect intermittent lane closures and delays up to ten minutes.

Timeline: June through July 2016
